**Kata CB-300
for Sony EX3, Canon XL-H1, JVC HD Series
and Similar**

CB-300 is a compact camcorder bag designed to be the perfect working tool for cameras such as Sony EX-3, Canon XL H1 and similar. The distinctive design features two large accessory pockets all along the top, which unfurl when you open the top flap. The snugly protected camcorder compartment is located beneath so when you are out and working, the access to your accessories is rapid and immediate. Additional storage is available in the two low-profile but high-capacity side pockets.
