

Mini-HD/DV Universal Micro-Fill Light Kits

Frezzi's New Universal Light Kits include everything you need to set up any Mini DV/HD camera with professional lighting. Frezzi's New light kits include a unique & versatile battery adapter that allows the Slim Line battery included in the kit to mount under the camera or be placed on a tripod as needed. As an added bonus it also mounts on our DV stick provided in the kit as well as clamps on most camera handles, monopods, tripods or light stands allowing for power to conveniently be delivered from your desired mounting location to any one of Frezzi's Professional on Camera Micro Fill lights.
