

PRO CYC

This product will literally pay for itself. On eBay and in the world of online retail, better pictures almost always equals more sales and/or higher sales prices. **MyStudio®** is a revolutionary NEW product that enables even the most inexperienced photographer to take professional quality photos from the comfort of your own home. Affordable, versatile and extremely easy to use, it has been expertly designed to accommodate the needs of most small product and macro photography.

MyStudio® MS20 (left), comes with the following items included:

- One [MyStudio® MS20CYC background](#) module with 90° corner, constructed of lightweight, high impact ABS plastic. Dimensions: 20" x 20" x 12"
